

CURRICULUM VITAE

CARMEN SÁENZ, Doctor in Pharmacy, Field: Food Technology (University of Madrid, Spain, 1979). Full Professor, University of Chile (2002). Since 1979 she is a professor in the Faculty of Agricultural Sciences at the University of Chile (Agronomy, M.Sc. and Ph.D. programs). Director of the Ph.D. Nutrition and Foods Program (University of Chile, 2006-2008), Director of the Graduate School of her Faculty (2001-2003) and head of Dept. Agroindustry and Oenology (2010-2012). She was the Coordinator of the Agroindustries & Post-harvest Working group of FAO-ICARDA CactusNet (1996-2017) and now she is the General Coordinator of the FAO-ICARDA Cactusnet (<http://www.cactusnetwork.org/>). Leader of the Agri-food group of CYTED (www.cyted.org) and member of the Chilean Academy of Pharmacy. Research activities: processing and uses of fruits and vegetables, mainly fruit from arid zones (cactus pear, pomegranate, etc.). Invited speaker in several congresses (Tunis, Egypt, Israel, France, Mexico, Spain, Peru, Morocco, Argentina, and South Africa, Brazil and Chile). She has published more than 50 papers including a FAO book with other authors. She has participated as teacher in several work-shops and extension courses for little farmers.

Research support:

Utilization of succulent plant species with agroproductive potential as an alternative for sustainable diversification in arid zones. 2015-2019. FIA (Ministry of Agriculture, Chile). PYT-2016-0151. Co-director.

Technical and agroindustrial validation of fruit crops of low water requirement for the valleys of Copaya and Lluta. FIC-Arica y Parinacota. Código Código BIP 30209072-0 (2014-2015). Co-researcher.

Extracción de betalaínas de *Opuntia* aplicando ultrasonido y estabilización por microencapsulación. 2013-2016. Proyecto CONICYT (Chile)-CONACYT (Méjico). PPCI 12015. Main researcher (Chile).

Extraction of *Opuntia* betalains using ultrasound and stabilization by microencapsulation. 2012-2014. Proyecto FIC-Coquimbo. BIP 30127538-0. Co-researcher.

Cactus pear (*Opuntia ficus-indica*) colorants obtained by membrane technologies separation and microencapsulation. Stability and applications in foods. 2011-2013. FONDECYT Nº 1110126. Main researcher.
